ELMS(Spices Board) | PHP, CodeIgniter 3, MySQL, Bootstrap

June 2022 - October 2022

Laboratory testing software for Spices Board of India. Expert provider of spices and calibration services testing, ensuring adherence to rigorous quality. The programme is targeted for implementation among registered spices exporters, institutions etc with a view to develop the export of spices from India.

PERSONAL PROJECTS

NCC & NSS Cadet Management | Python | Django

Developed a comprehensive platform for colleges to manage NCC (National Cadet Corps) and NSS (National Service Scheme) cadet information. The system efficiently collects, stores, and organizes cadet details, facilitating seamless communication and announcements about upcoming events, activities, and training sessions. This platform enhances administrative efficiency, ensures accurate record-keeping, and provides timely updates to cadets, thereby supporting their engagement and participation in college-based programs.

Farm Management | Python | Django

Developed an advanced Farm Management System designed to streamline agricultural operations and enhance productivity. This system provides comprehensive tools for planning, monitoring, and managing farm activities, including crop and livestock management, inventory control, field mapping, and resource allocation. It enables real-time data tracking and analysis, supporting informed decision-making and efficient resource utilization.

EDUCATION

Diploma in Computer Engineering

Govt Polytechnic College Muttom, Thodupuzha
2018 - 2021

Higher Secondary Education

Govt Higher Secondary School Amaravathy, Kumily
2015 - 2017

High School (SSLC)

Fathima Matha High School Mlamala, Vandiperiyar
2014 - 2015

INTERNSHIP

Full Stack Web Development in Python(Django)

Synnefo Solutions, Kochi, Kerala
2022

TECHNICAL SKILLS

Programming Languages

- PHP
- JavaScript
- Python

Frameworks & Libraries

- Laravel
- CodeIgniter 3 & 4
- React
- jQuery
- Bootstrap

Front-End Technologies

- HTML5
- CSS3
- AJAX
- JSON

Database

- MySQL
- Microsoft SQL Server (MSSQL)

Web Services

- RESTful APIs

Tools & Platforms

- Git
- GitHub
- SVN
- Linux
- AWS EC2
- Visual Studio Code
- Android Studio
- Postman
