

PROFESSIONAL SUMMARY

Over 3 years, I've specialized in PHP development, mastering the CodeIgniter framework to build scalable applications. While I have some experience in automation testing, my primary focus has been on crafting robust and efficient solutions using CodeIgniter. This combination of skills allows me to deliver high-quality software that meets modern development standards. I'm excited to utilize my skills in advancing innovation and optimizing efficiency in back-end development initiatives.

EXPERIENCE

YUYI TECHNOLOGY AND MANAGEMENT SERVICES PRIVATE LIMITED KOCHI, INDIA | NOVEMBER 2024 - AUGUST 2025

Jobstars Administrative Dashboard | CodeIgniter 4, MySQL, Bootstrap 4, GitLab, Linux
November 2024 - February 2025

Developed and maintained a comprehensive Candidate Management and Invoice System for JOBSTARS HR SOLUTIONS PVT. LTD, a recruitment consultancy specializing in job placements across India and overseas. The system streamlines candidate registration, personal details management, and invoicing for job placement services, ensuring an efficient workflow for recruiters and HR professionals.

MEGATREND KNOWLEDGE MANAGEMENT SYSTEMS KOCHI, INDIA | APRIL 2022 - OCTOBER 2024

Will System | PHP Developer, CodeIgniter 4
April 2023 - October 2024

In socio-political environments where private ownership of assets is supported, individuals must address the succession of their assets upon their passing. This project examined the legal frameworks and processes by which assets are distributed if a person does not establish a succession plan. The focus was on understanding the statutory procedures in various jurisdictions and their implications for asset distribution

FARELABS | PHP Developer, CodeIgniter 3
October 2022 - August 2023

Laboratory testing software for food products. Expert provider of testing and calibration services, ensuring adherence to rigorous quality and regulatory standards to safeguard brand integrity. Facilitating responsible growth and enabling companies to deliver assured quality to consumers

ELMS(Spices Board) | PHP Developer, CodeIgniter 3
June 2022 - October 2022

Laboratory testing software for Spices Board of India. Expert provider of spices and calibration services testing, ensuring adherence to rigorous quality
The programme is targeted for implementation among registered spices exporters, institutions etc with a view to develop the export of spices from India.

PERSONAL PROJECTS

NCC & NSS Cadet Management | Python | Django

Developed a comprehensive platform for colleges to manage NCC (National Cadet Corps) and NSS (National Service Scheme) cadet information. The system efficiently collects, stores, and organizes cadet details, facilitating seamless communication and announcements about upcoming events, activities, and training sessions. This platform enhances administrative efficiency, ensures accurate record-keeping, and provides timely updates to cadets, thereby supporting their engagement and participation in college-based programs.

Farm Management | Python | Django

Developed an advanced Farm Management System designed to streamline agricultural operations and enhance productivity. This system provides comprehensive tools for planning, monitoring, and managing farm activities, including crop and livestock management, inventory control, field mapping, and resource allocation. It enables real-time data tracking and analysis, supporting informed decision-making and efficient resource utilization.

EDUCATION

Diploma in Computer Engineering

Govt Polytechnic College Muttom, Thodupuzha
2018 - 2021

Higher Secondary Education

Govt Higher Secondary School Amaravathy, Kumily
2015 - 2017

High School (SSLC)

Fathima Matha High School Mlamala, Vandiperiyar
2014 - 2015

INTERNSHIP

Full Stack Web Development in Python(Django)

Synnefo Solutions, Kochi, Kerala
2022

SKILLS

- | | |
|----------------------|--------------------|
| • Programming | • Front-End |
| • PHP | • HTML |
| • JavaScript | • CSS |
| • Python | • React |

Tools and Software

- Visual Studio Code
